

Lynam Inc Fontana, California

Lynam can save you time and money with proprietary processes, enormous capacity, unique powder-coating and robotic welding.

Lynam's passion is transforming raw metal into useful products for all types of business applications.

***Rack systems for computer data centers * Metal boxes for telecom wire *
Enclosures for x-ray equipment
Twenty years meeting rigorous standards for OEMs
98% on-time delivery rate**

**Lynam's
Passion**

Lynam-designed machines have been perfected over the years to:

**Proprietary
Machines**

**Save time with computer-controlled machines
Save time with smaller, low-cost production runs
Take advantage of precise production replication**

**Massive punching capacity provides speedy delivery
Highly customizable machinery provides instant set-up
Cellular process provides quick turn-around
Computer-controlled equipment minimizes set-up errors**

**Massive
Capacity**

**Powder
Coating**

**Lynam's proprietary powder coating process saves time
No masking or hand-cleaning of holes
35% less cost with automated line instead of batch
Apply custom colors & textures at low cost**

**Save time with Lynam's robotic welding services
Consistent quality means fewer rejected parts
Save time with precise, rapid welding
Eliminate tooling and fixture charges**

**Robotic
Welding**
